 Crockett, C. B.
 Croninger, R. H.
 Curtis, Frank W.
 Cutler, T. H.

TITLE OF PAPER

| | | PAGE | |
|---|----------|---------|---------|
| Developments in the Determination of Gum in Gaso- | | | |
| line | (N) | 7 | |
| The Development of the Autogiro | (N) | 25 | |
| What the Body Engineer Wants in a Chassis (N) | 10 | 335 | |
| Wind-Tunnel Tests and Body Design | (P) | 29 | |
| Factors Controlling Engine-Carbon Formation | (P) | 215 | |
| Torsional-Vibration | (D) | 62 | |
| Factors Controlling Engine-Carbon Formation | (P) | 215 | |
| The Field for Synthetic Lubricating Oils | (N) 10 | (P) 40 | (D) 223 |
| Engineering and Its Relation to Aviation | (N) | 417 | |
| Quality Control of Motor Fuels | (N) | 489 | |
| The Turbo Supercharger | (N) 256 | (P) 280 | (D) 476 |
| Fuels for Internal-Combustion Engines | (N) | 487 | |
| Influence of Carburetor Setting and Spark Timing on | | | |
| Knock Ratings | (P) | 129 | |
| Aircraft Operation Costs | (N) | 417 | |
| Developments in the Determination of Gum in Gaso- | | | |
| line | (N) | 7 | |
| Fuel-Line Temperatures in Cars of 1931 | (N) 8 | (P) 447 | |
| Airplane Fuel-Line Temperatures | (P) | 121 | |
| Electric-Furnace Cast-Iron | (P) | 85 | |
| The Interpolation Method in Detonation Testing | (N) | 6 | |
| Effect of Humidity and Air Temperature on Octane | | | |
| Numbers of Secondary Detonation-Standards | (P) | 45 | |
| The Tire Factor in Automobile Riding-Quality | (N) | 16 | |
| Driver Reaction Time and Highway Safety | (N) | 486 | |
| Body Comfort and Interior Appointments | (N) | 9 | |
| A Suggested Basis for Rating the Ability of Motor- | | | |
| Trucks | (N) 2, | 336 | |
| Work of the Bureau of Standards | (N) 350, | 426 | |
| Fuels for Automotive Diesel Engines | (N) | 3 | |
| Aeronautic Propellers | (N) | 258 | |
| Influence of Carburetor Setting and Spark Timing | | | |
| on Knock Ratings | (P) | 129 | |
| Labor Cost | (N) | 339 | |
| The California Highway Patrol | (N) | 487 | |
| Rear-Engine Mounting | (N) | 11 | |
| Recent and Future Developments in Passenger-Cars | (N) | 416 | |
| The Turbo Supercharger | (N) 256 | (P) 280 | (D) 476 |
| Air-Cooled Cylinder-Head Design | (N) 14 | (P) | 185 |
| Engineering and Its Relation to Aviation | | | |
| Recent Developments in Poppet Valves | (N) 14 | (P) 59 | (D) 404 |
| Accidents—Worse Than War | (N) | 416 | |
| Controllable and Automatic Aircraft Propellers | (N) | 258 | |
| New Bond for Grinding Wheels | (N) | 250 | |
| Diesel Engines Evaluated | (P) | 73 | |
| Aircraft Development in Recent Years | (N) | 417 | |
| The Place of Industrial Trucks in Automotive Mate- | | | |
| rials Handling | (P) 158 | (D) 409 | |
| The Progress of Automotive Brake-System Forces | (N) | 487 | |
| Milling with Tungsten and Tantalum-Carbide Cutters | (P) | 232 | |
| Highway Construction and Law | (N) | 486 | |
